

STUDY TOURS & OVERSEAS STUDY SUPPORT

1. ART & CULTURAL TOURS

Australia offers endless possibilities for your vacation. Indoors or outdoors, laid-back or adrenalin-pumping, exclusive or in groups. Take your pick! And what better way to explore this great continent than to combine the sightseeing and activities with study tours to listen to seminars from experts, meet master artisans and craftsmen in the workshops, wineries and factories, learn about Australian wildlife from park rangers, and more!

Tour with expert guides. Listen to stories about Australia the books may not tell you. At your request, the tours can be customized to suit your interest. Choose from exotic options like aboriginal culture, Australian flora and fauna, country women's arts and crafts. Or, live it up in the world famous vineyards and wineries, cruise Sydney Harbour in a yacht, or take a flight in a light aircraft to catch the breath-taking views.

Marvel at the exquisite architecture and interiors of heritage buildings. Invite an architecture professor to walk through the Queen Elizabeth Building with you, or have a personal shopper advise you on the best buys for your lifestyle.

Take the kids to explore the creatures great and small, in their natural habitats or in fantasy-land. Let them watch their fairy tales come to life.

Visit the chocolate and cheese factories to sample their wares and take home some delectable delicacies.

Let the kids run free; feel the grass and sand beneath their feet; play, laugh and shout to their hearts' content! Kids can really be kids in the great open spaces that make up Australia!
