

1. ACADEMIC STUDY

STUDY IN
AUSTRALIA

Australia offers some of the best educational opportunities in the English-speaking world. Students can take their pick:

- Historic sandstone universities renowned for their cutting edge research in various fields like medicine, law, accounting, business, architecture, marine biology, geology and social sciences.
- Young, enterprising universities that offer the newest creative, artistic and technological study programs, like wine marketing, sports science, digital arts and cosmetology.
- Professional, career-oriented TAFE colleges and other institutions with courses geared towards popular careers in fields as diverse as aviation, mechanics, fashion, languages, and animation.
- Private and public high schools offering the best preparations for Cambridge International Examinations and International Baccalaureate Examinations, for progression into tertiary institutions in Australia and world-wide.

Enjoy the casual, informal learning atmosphere while earning reputable degrees and diplomas. Have a balanced life of study, work and play! Make lots of new friends with the local Aussies as well as the international students from all over the world. Take off on weekends and holidays to explore the huge expansive Australian landscape!

Our partners in Australia offer services to support you from the very beginning of your educational journey, to the accomplishment of your dreams! See our range of services in the chart below. Speak to one of our consultants today for details.
